

## Mini Bacon and Eggs Pattern

You will need:

E Hook

Small amounts of maroon/dark red yarn, cream colored yarn, white yarn, and yellow yarn in a worsted weight. (I used Red Heart Super Saver)

Tapestry needle

Small amount of poly-fil stuffing

Mini Bacon:

(make two of these)

With the E hook CH 13

1<sup>st</sup> row: SC 3 in the first 3 CH's, then in the 4<sup>th</sup> CH (SC 1, CH 1, SC 1) all into the 4<sup>th</sup> CH, then SC 3 in the next 3 CH's, then skip the next two CH's, SC into the last 3 CH's.

2<sup>nd</sup> Row:

-For this row you'll need to switch to your cream yarn. To switch colors insert your hook into the last CH of the previous row, pick up a loop of the red but then when you yarn over do so with the cream instead. This makes for a seamless transition. Below is a photo showing how to change color. After you switch to cream CH 1 and turn.

-Once you get the color changed, you'll want to carry the red under the cream because you'll need to pick it back up for the next row. (See photo below) Then with the cream yarn you'll do one SC into each of the first 3 stitches, then in the 4<sup>th</sup> stitch you'll do a (SC 1, CH 1, SC 1) like you did in the last row. Then do one SC into each of the next 3 stitches, skip 2 stitches, and do one SC into each of the last 3 stitches. On the last SC of the row make sure to pick back up that red you've been carrying underneath. Change back to red the same way you changed to cream.

3<sup>rd</sup> Row: with red CH 1 and turn, 1 SC into each of the next 3 stitches, at the 4<sup>th</sup> stitch do another (SC 1, CH 1, SC 1) then SC 1 into each of the next 3 stitches, skip two, and finish with 1 SC into each of the last 3 stitches and finish off. Here's a photo of how it should look after you finish the third row.

-Once you get both slices of mini bacon made you'll need to sew them together. This plushy doesn't require any stuffing. The two slices sewn together makes it soft enough that it doesn't need any stuffing. It's best to crochet them together instead of sewing with a tapestry needle. Make sure you do 2SC into any "corner" or point so as not to lose the zig-zag shape of the bacon. Make sure to tuck in any loose ends while joining the two pieces to keep them hidden, if you miss any just weave them in with a tapestry needle.

Mini Egg:  
Still using the E hook

For the top part:

-With yellow CH 2, SC 6 into the second CH from hook and join with a slip stitch and CH 1 to make a small circle.

1<sup>st</sup> Round:

-2 SC into each stitch around, join with a slip stitch and CH 1.

2<sup>nd</sup> Round:

-1 SC into each stitch all the way around, join with a slip stitch and CH 1. When you join with your slip stitch you'll need to change to white. Do so the same way we changed colors with the bacon (Insert your hook, and pull up a white loop to complete the slip stitch with. Finish off your yellow here)

3<sup>rd</sup> Round:

-with the white yarn, SC 2 into the first stitch, SC one into the next stitch. Continue a 2, 1 pattern all the way around. Join with a slip stitch and CH 1.

4<sup>th</sup> Round:

-SC 2 into the first stitch, SC 1 into the next 2 stitches. Continue that 2, 1, 1 pattern all the way around. Join with a slip stitch and CH 1.

5<sup>th</sup> Round:

-SC 2 into the first stitch, SC 1 into the next 3 stitches. Continue that 2, 1, 1, 1 pattern all the way around. Join with a slip stitch and finish off.

For the back piece of the mini egg:

-With white CH 2, SC 6 into the second CH from hook join and CH 1 to make a small circle.

1<sup>st</sup> Round:

-2 SC into each stitch around. Join with a slip stitch and CH 1.

2<sup>nd</sup> Round:

-2 SC into first stitch, 1 SC into next stitch. Continue that 2, 1 pattern all the way around and join with a slip stitch.

3<sup>rd</sup> round:

-2 SC into the first stitch, 1 SC into each of the next 2 stitches. Continue that 2, 1, 1 pattern all the way around and join with a slip stitch and CH 1.

4<sup>th</sup> Round:

-2 SC into the first stitch, 1 SC into each of the next 3 stitches. Continue that 2, 1, 1, 1 pattern all the way around. Join with a slip stitch and finish off.

Construction:

-once you have both sides of the egg made you'll need to sew them together. This plushy requires a small amount of poly-fil stuffing for the yellow part. Just pinch off a small amount of stuffing and insert it into the bowl shaped yellow part of the egg.

-once you get the stuffing in place use your tapestry needle to sew around just the yellow part. To do this lay both sides of the egg together with the stuffing inside the yellow part. Then using your tapestry needle and white yarn through both side of the egg going around just the middle yellow part of the egg. Tie a small square knot on the back of the egg and weave in your ends.

-For the final touch sew together the outside pieces of the egg by sewing around the edges with your tapestry needle and white yarn. Again tie a small square not and weave in your ends.
